I'm a seasoned information security professional; however, user interface design is a passion of mine. Recently, I completed a course about UX/UI for Gaming taught by an industry professional and received a score of 115/100. To further my skills, I am currently studying Unity, specifically its integrations such as layout components, animations, and prefabs. Since I am very technical as well as creative, I believe UI design allows me to flex both my engineering and artistic muscles.

◆ KEY COMPETENCIES

- Asset Design & Iconography
- Prototyping & Wireframes
- Adobe Creative Suite
- Figma

◆ CERTIFICATIONS

Adobe Certified Professional

Adobe Photoshop, Adobe Illustrator
Received in 2020

◆ PROJECTS

Animal Crossing: Competitive Mode — UX/UI for Gaming 10/2024

- Style guide for a fake competitive entry in the Animal Crossing franchise.

Budget Pursuit — HackGT 2019 10/2019

- App to gamify personal finances like a roleplaying game. Designed character sprites and maps.

ShellHacks, Florida's Largest Hackathon — 2019.shellhacks.net 05/2019

- App for "living like a local" while traveling. Designed logos, icons, typography, and overall UI.

◆ PROFESSIONAL EXPERIENCE

The Pokémon Company International — Seattle, WA 08/2021 - Present

Security Governance, Risk, & Compliance Engineer (Full-Time)

- Managing the corporate Information Security Education and Awareness program to include: development of outreach roadmaps, delivering content to the enterprise through multiple channels such as mandatory and voluntary computer modules, newsletters, and webinars.
- Developing an enterprise Third-Party Risk Management function from the ground up to formalize internal and external compliance and privacy standards and ongoing improvement of risk management and audit processes.
- Engaging in communications and outreach across all business units within the company to ensure understanding of the Information Security Team's goals and initiatives - known across the enterprise as "The Face of InfoSec."

Farelogix, An Accelya Group Company — Miami, FL 05/2018 - 08/2021

Information Security Analyst (Internship, then Full-Time)

- Constructed and annually maintained a comprehensive set of information technology, information security, and privacy policies and procedures in compliance with Payment Card Industry Data Security Standard (PCI-DSS), Center for Internet Security (CIS) benchmarks, and the General Data Protection Regulation (GDPR).
- Established an enterprise Information Security Awareness program utilizing KnowBe4 to distribute annual, mandatory computer-based training and track metrics, aiding to determine areas of improvement and success.
- Identified, assessed, and audited information technology controls to prevent and mitigate risks regarding the confidentiality, integrity, and availability of the business, using tools such as InsightIDR, ExtraHop, and Qualys.

◆ EDUCATION EXPERIENCE

Florida International University — Miami, FL 08/2016 - 12/2020

Bachelor of Science in Information Technology
Minor in Fine Arts
